

***Right to the
Finish . . .***

Palmetto Plating Co., Inc. was incorporated in March of 1964. Our intention is to provide unique metal finishing services. The fact that we limit ourselves to certain specific services enables us to provide you with specialized finishes.

If you would like to improve the appearance or corrosion protection of your product or parts – Please call today.

METAL FINISHING SERVICES

Anodizing

Protective coating for aluminum alloys – non-conductive and corrosion resistant. **Variety of colors available.**

Black Oxide

Attractive black finish for steel parts.

Chromate Conversion Coating

Coatings for aluminum to enhance corrosion protection and/or paint adhesion. **Meets Mil Spec Mil-C-5541, Type I**

Electroless Nickel Plating

Hard, corrosion resistant uniform coating for engineering purposes.

Black Electroless Nickel

A hard jet black coating for Electroless Nickel

Electropolishing

Unique finish on stainless steel – bright, passive, improves corrosion resistance and removes burrs.

Hard Chromium Plating

Extremely hard and durable coating on steel, brass, copper, cast iron.

Nickel Plating

Corrosion resistant coating on steel, brass, copper, cast iron.

Pickling and Passivate

Services range from miniature to massive – field service for food and drug piping and storage tanks.

Palmetto Shield

A unique alloy deposit that is chromium free yet looks like Decorative Chromium and can be processed without expensive fixturing.

Sulfamate Nickel

This semi-bright deposit has very low internal stress and is very ductile with a hardness of 250 to 350 Vickers.

Copper & Copper Alloy Bright Dip

Small part Bright Dip processing.

LIABILITY LIMITATION

(Revision Date: 01-12-16)

ALL PURCHASE ORDERS ARE ACCEPTED SUBJECT TO THE FOLLOWING CONDITIONS.

It is generally recognized that even after employing the best processing methods known to us, there still remain hazards in the field of metal finishing. As a result, and in order to avoid misunderstandings, we are setting forth below conditions under which your material will be accepted by us for processing:

1. Parts, materials, etc. as processed by us shall be presumed to be accepted as satisfactory by you if we are not notified of damages, shortages, or other discrepancies within 10 days of shipment date.
2. If your parts are not finished correctly or are damaged while in our possession, one of the following will apply:
 - A. If the part can, in our opinion, be reworked by us so that the finish will be as you specified, our only liability is for the cost of reworking the part.
 - B. If the part cannot, in our opinion, be reworked by us so that the finish will be as you specified, our liability for any cause is limited to twice the amount of our charges for the work done on any material (first to compensate for the charges and second to compensate in the amount of the charges). Charges for our services are based on this policy limiting our liability.
3. Liability greater than that outlined in paragraph (2) above will be assumed by us only when so agreed in writing and signed by an officer (not a representative) of Palmetto Plating Co., Inc. In such event, a higher charge may be made for our services.
4. Rejected parts must be returned to us for rework. Further processing, assembling, painting, or other work prior to such rejection shall constitute a waiver of any liability on the part of Palmetto Plating Co., Inc.
5. Where operations or processes performed by us are in the nature of "salvaging" parts or material, the work is accepted on a "best effort" basis and no liability shall be attached to us unless previously agreed upon in writing and signed by an officer (not a representative) of Palmetto Plating Co., Inc. prior to processing the job.
6. No agent or representative is authorized to alter the above conditions, except in writing and duly signed by an officer of Palmetto Plating Co., Inc.

We are sure you will agree with us that the conditions above are realistic and reasonable and that acceptance of the material for processing subject to such conditions will permit us to continue to provide quality metal finishing at an economical price.

THE CONDITIONS ABOVE HAVE BEEN READ OR EXPLAINED TO ME AND ARE ACCEPTABLE.

TERMS AND PAYMENT POLICY

(Revision Date: 01-12-16)

It is the policy of Palmetto Plating Co., Inc. to work within the financial needs and abilities of our customers. If special conditions require more flexible plans, it is our intention to work with each customer's needs.

ALL SHIPMENTS ARE F.O.B. EASLEY, SC.

For customers with established credit reflected by a satisfactory Dun and Bradstreet rating, we offer a choice of the following:

1. A 2% cash discount allowed if paid within 10 days from date of invoice.
2. Net 30 days from invoice date.

For customers who are not in Dun and Bradstreet but furnish three satisfactory credit references and a Bank reference, we gladly offer the same terms as above.

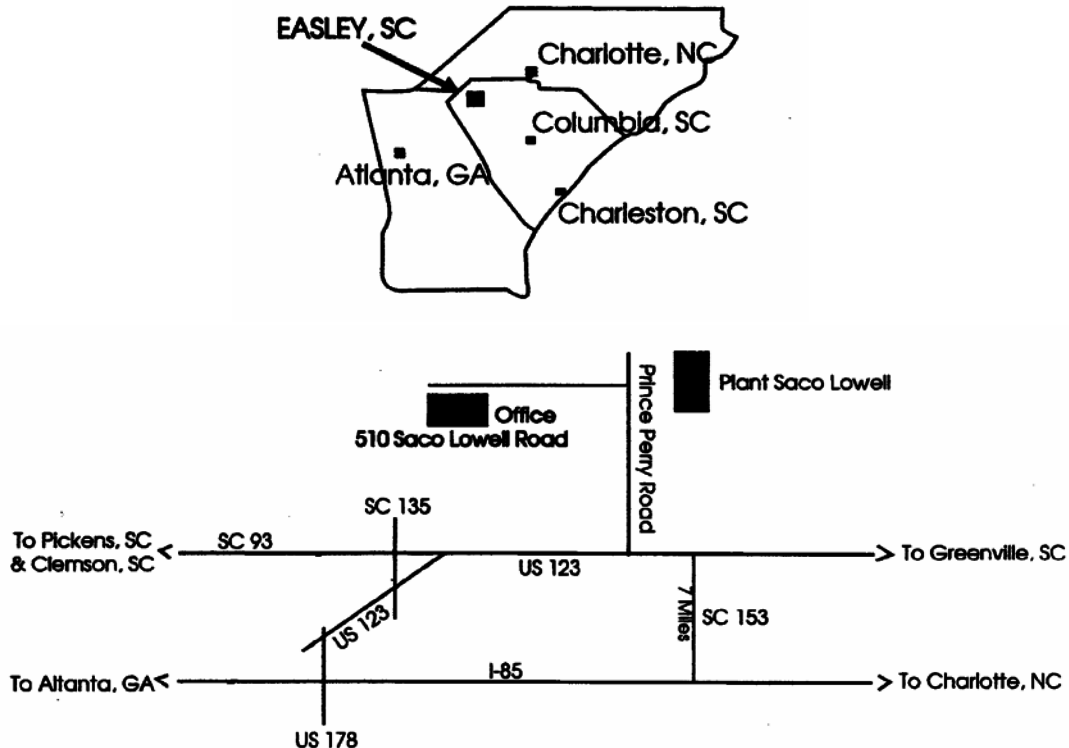

If credit is not established or for customers who prefer to pay cash or for customers who do not wish to complete a credit application, we offer terms of cash upon completion of order. Company or personal checks as well as Visa or Master Card are always acceptable.
